

Entrance test for Practical Nursing and Generic Entry RN programs

Overview of the test

The test consists of 4 sections, a total of 91 online, multiple choice questions, requiring a testing time of 165 minutes. Questions will evaluate basic reading, math, writing and science skills.

READING - 22 questions; time allotted - 45 minutes. Candidates read four passages and answer questions that measure the essential skills required for reading:

- Determining the logic of a passage
- Comprehending details
- Drawing basic inferences
- Identifying the purpose of a passage

MATH - 28 questions; time allotted 45 minutes. The test measures the candidate's ability to apply mathematical principles in the following areas:

- Conversions
- Operations
- Ratios
- Word problems

Note: An online calculator is provided.

WRITING - 21 questions; time allotted 45 minutes. Candidates read nine passages and answer questions that measure the essential skills required for writing:

- Assessing passage development
- Assessing paragraph logic
- Assessing mechanics of writing

SCIENCE- 20 questions; time allotted 30 minutes. The test measures the candidate's knowledge of physiology in the following areas:

- Cardiovascular system
- Electrolytes
- Gastrointestinal system
- Immune system
- Neurology
- Renal system
- Hematological system
- Homeostasis
- Respiratory system
- Sensory system

The following preparatory materials are available: [Kaplan Nursing School Entrance Exams: Your Complete Guide to Getting Into Nursing School \(Kaplan Nursing School Entrance Exam\)](#) by Kaplan (Available at local bookstores or through Amazon.com) *Please Note: it is recommended that students use the areas listed above in the overview.

Instructions

Test Location: Main Campus Building, room 224. Cost: \$50 (pay at the Cashier Window)

BRING YOUR PHOTO ID and RECEIPT for the test. *Students should have nothing else with them while taking the test (no cell phones, calculators, books, pens, etc...).

The test will begin with a 9 question tutorial for the test; this tutorial does not take away from the test time and it is **strongly recommended students complete the tutorial.**

Do NOT click the browser's BACK button.

At no time during the test should students click on the browser's Back Button as this will close the test! Answer a question and proceed to the next one. Leave nothing blank, as you will NOT be able to return to previous questions in previous sections! Once you choose to end a section, you are finished with that section and cannot return to it.

- Click "Next" to proceed to the next question.
- Click "Suspend" **ONLY** if instructed to do so by your test proctor.
- Click "End Test" **ONLY** after completing all 91 questions!
- Click "Calculator" to perform any mathematical functions required
- If your server goes down, simply close your browser, log in again, and you will be able to start the test where you left off.

Caution!!!

- Do not go to another website while testing is in progress. You will lose access to the test and your score will be calculated only on the questions answered up to that point.
- Do not click "End Test" until you have answered all questions, or until time is called by your proctor. You will not be able to enter the test again after choosing this option.
- **Do not click the browser's back button on the computer. Your test will be closed.**

Caution!!! You MUST PRINT your test score results.

- After completing the test, click "Performance Analysis" on your homepage.
- Print your score page and give to the test proctor.

To schedule your test, contact Jerrie Hooper, 870-612-2071
